The following is a statement of my farewell wishes.

我懇切要求我的親人和朋友尊重我的意願，即使他們未必同意我的想法。

I kindly ask my family and friends to respect my wishes even though they may not agree with me.

我亦請他們把我的離世視為人生必經的階段，希望他們在我離世後能盡快回復平靜的生活。

I also ask that they see my death as a rite of passage, and I wish for them to live at peace after my death.

世事萬物皆有盡頭，我們的生命亦有完結的一天。雖然我們無法決定生命的長短，但卻可以在自己仍有能力時，預先向至親表達自己的晚晴意願（如在死亡臨近時，希望得到怎樣的照顧）。我們了解到，受中華傳統文化的影響，華人對待死亡的態度與西方文化有所不同。例如出於孝道的考慮，華人子女常認為應不顧一切、積極搶救生命垂危的長輩直至最後一口氣、才算是「盡了孝」。然而，隨著人類平均壽命的不斷延長，若能在生命末段時過著有尊嚴和高質量的生活，是一個人的福氣、亦值得我們去重視和考慮。

在維多利亞州（澳大利亞），自2018年3月起，按醫療計劃及決定法案2016（Medical Treatment Planning and Decisions Act 2016）的規定，個人可以訂立具有法律效力的「預設醫療（護理）指示」（以下統稱為「預設醫療指示」），來記錄自己的晚晴意願以及在生命垂危時醫療照顧方面的指示。而只有當個人失去做決定的能力時，其預設醫療指示才開始起作用。具法律約束力的預設醫療指示文件必須以英文書寫，並在一位註冊醫生及另一位獨立成年見證人面前簽署，方為有效。您還可以委任一名（您的）醫療決策者，來確保您的預設醫療指示得以遵循。您的醫療決策者也必須在相關文件上簽署，來接受您的委任。若您沒有訂立任何預設醫療指示文件或尚未委任一位醫療決策者，在您無法做醫療決定時，您的醫生（或醫療團隊）將依照以下順序、征求您最親近的親屬或保有密切關係的人來為您做醫療決定，包括您的：

1. 配偶或同居伴侶
2. 主要照顧者（照顧您的人且不能是您付薪雇用的人）
3. 成年子女
4. 父或母
5. 成年的手足（兄弟姐妹）

**\*\* 同一順序有多位成員時，以年長者為先。**

如果您沒有家人，當您失去為自己做決定的能力時，維多利亞之公眾代言人（Public Advocate）便可能會被要求代您做醫療決定。（請訪問公眾代言署(OPA)相關網站，查詢更多相關信息）

在維多利亞州的預設醫療指示文件中，您可以製定兩種類型的指示：（1）指令性指示（Instructional Directive），具有約束力的聲明，您可以寫下您願意及不願意接受的治療方法及手段。您的醫護人員將必須遵守您的指示。由於指令性指示規範了醫療人員在治療您時可以採用的治療方法，因此您必須非常小心且清楚明白所寫內容的含義及其後果。（2）價值觀取向性指示（Values Directive），您可以寫下總體上

# Introduction

Our lives will come to an end one day. While we cannot control our lifespan, we can advise our loved ones well in advance on our farewell wishes (such as how we would like to be cared for when our last days are approaching). We are aware that, influenced by traditional Chinese culture, the attitude of Chinese towards death is different from that of Western culture. For example, out of filial piety, Chinese often believe that we should insist on providing life-prolonging treatments to our parents who might be dying, to be regarded as being filial. However, as the average life expectancy of human beings continues to increase, living with dignity and quality at the end of life is also important for one's wellbeing and also worthy of our attention and consideration.

In Victoria (Australia), as of March 2018, the *Medical Treatment Planning and Decisions Act 2016* allows you to give legally binding farewell wishes and instructions in relation to your end-stage medical decisions. They are called advance care directives. Your directives are only utilised when you lose your capacity to communicate your wishes. To make the directives legally binding, you need to complete them in English, and sign them in front of two (2) independent adult witnesses, one of whom is a registered medical practitioner. You can also appoint a medical treatment decision maker who will ensure your advance care directives are followed. Your medical treatment decision maker will need to sign to accept the appointment. If you do not have any advance care directives in place nor any appointed medical treatment decision maker, your medical decisions will be made by your closest relative or the first of the following persons who is in a close and continuing relationship:

1. your spouse or domestic partner
  2. your primary carer (who looks after you but cannot be paid to care for you as a job)
  3. your adult child
  4. your parent
  5. your adult sibling (sister or brother)
- \* If more than one person is in the same position, the eldest person will be dedicated.

If you don't have any family, Victoria's Public Advocate might be asked to make the medical treatment decision for you if you lose your capacity to make your own decisions. (For more information, please visit the website of the [Office of the Public Advocate](#).)

There are two types of directives you can make within the Victorian advance care directive: (1) An Instructional Directive, a legally binding statement in which you consent to, or refuse, specific future medical treatment. Your health practitioners must follow your directive as this is a legally binding statement which restricts the medical treatment that can be offered by your health professionals, you must make sure you understand the meaning and implications of your statement made. (2) A Values Directive, a statement of your overall values and preferences as to treatment options for your end-

您對醫藥治療的價值取向與喜好。此指示所提供的信息可幫助您的醫療決策者 (Medical Treatment Decision Maker) 盡可能做出符合您意願的決定。他們應當同意他們認為您會想要的治療，並拒絕他們認為您不想要的治療。特別是在緊急情況下，若無法聯繫到您的醫療決策者，價值觀取向性指示將指導醫務人員提供與您的價值觀取向一致的治療。在訂立預設醫療指示文件時，您可以選擇訂立其中一種或同時訂立兩種指示。

這本《我的晚晴意願》小冊子旨在幫助您與您的家人和其他醫護人員開啟關於您在臨終時想要得到的照顧方面的對話。若您的親人需要為您做出醫療決定，這也是一份他們可以遵循的指南。這本小冊子同時還將幫助您的醫生或其他醫護人員進一步了解對您來說重要的事情，特別是在無法聯繫到您的醫療決策者和家人的情況下。您可以用英文填寫本小冊子並由兩個獨立成年人見證您的簽名（其中一名須為澳洲註冊醫生，且兩位均不可以為您的醫療決策者），這將有助於明確小冊子中所提及的內容是您真實的意願。若您在用英語填寫表格時遇到困難，建議您尋求適當的語言支持。

本小冊子並不能夠向您的醫生或護理人員提供具有約束力的指示。若您確實希望提前授意或拒絕某些治療手段或方法，您應該填寫由維多利亞州政府為成年人提供的「預設醫療指示表格」(a Victorian advance care directive form (for adults))。這必須用英語完成並由兩位成年人見證您的簽名，且其中一位見證人必須是註冊醫生。

我們也鼓勵您完成以下法律文件，使您各方面的晚晴意願都能得以遵循：

1. 填寫「委任持續代理權」(Enduring Power of Attorney Appointment) 表格來委任一位持續代理人，為您作出重要的財務及個人決定。
2. 訂立遺囑：遺囑是一份法律文件，詳細說明個人在身故後如何分配自己的財產。我們建議您委託律師來起草您的遺囑。

\*\* 若您希望對「醫療計劃及決定法案2016」(Medical Treatment Planning and Decisions Act 2016) 或上述相關法律文件有更深入的了解，請諮詢有關法律人士。

of-life care. It provides information to help the medical treatment decision maker make, as closely as possible, the same decision that you would make for your yourself, if you were able to. They should consent to treatment(s) they believe you would want, and refuse treatment(s) they believe you would not want. If your Medical Treatment Decision Maker cannot be contacted, particularly in an emergency, the Values Directive will guide treating medical staff in providing the treatment(s) consistent with what you would want. In preparing your advance care directive, you can choose to complete either or both directives.

This 'My Farewell Wishes' booklet is designed to help you start a conversation with your family members and other healthcare providers about how you would like to be cared for at the end of your life. It is also a guide for your loved ones to follow, should they need to make medical treatment decisions for you. It will also help your doctor or other health practitioner understand what is important to you, particularly if your Medical Treatment Decision Maker and family cannot be contacted. Completing the form in English and having it witnessed by two people, one of whom is a medical practitioner, will help make it clear that the information in the document is what you want (neither witness can be your appointed medical treatment decision maker). You are recommended to seek appropriate language support if you have difficulties completing the form in English.

This *My Farewell Wishes* booklet does not give binding instructions to your doctor or health practitioner. If you do wish to give binding consent or refusal to certain treatments, you should complete a Victorian advance care directive form (for adults) provided by the Victorian State Government in advance. This form must be completed in English and witnessed by two adults, one of whom must be a medical practitioner.

We also encourage you to complete the following legal documents to make clear every aspect of your farewell wishes:

- Appoint an enduring power of attorney to make important financial and personal decisions for you by filling in the Enduring Power of Attorney Appointment form.
- Complete a will: A will is a written legal testament with detailed descriptions on how an individual wants his property to be distributed after he passes away. We recommend you have your Will drafted by a solicitor.

**\*\*** If you would like further information about the *Medical Treatment Planning and Decisions Act 2016* and the legal documents mentioned above, you should seek independent legal advice.

# 身體照顧上

## Physical Care

當我病重並失去表達能力時(或在我生命垂危時)，在身體照顧上我有以下意願。(可剔選以下符合您意願的項目)

When I am very sick and unable to speak for myself (or I am at the end stage of my life), I wish to have the following physical care. (You can tick the following items that meet your wishes)

我希望家人能告訴我有關我病情的真相。

I hope that my family tells me the true prognosis about my illness.

只要不令我感到不適，我希望有人能提供幫助、照顧我的個人衛生及儀容。

I wish to have proper personal care and have others take care of my appearance as long as it does not cause me discomfort.

我不想承受痛苦，我希望我的醫生及照顧我的醫護人員給我足夠的藥物來減輕我的痛苦與不適，即使這會讓我更加困倦。我知道在生命末期時，症狀緩解治療通常不會加速死亡，所以相比起遭受病痛折磨，我寧可接受末期的症狀緩解治療。

I do not want to be in pain. I ask that my doctor and other healthcare providers who look after me give me enough medication to relieve my pain and distress, even if this makes me more sleepy. I understand that treating symptoms at the end of life does not usually hasten dying but, if necessary, I would accept this rather than have distressing symptoms.

若主診醫生認為醫療措施對改善我的病情沒有幫助、反而會徒增痛苦，那麼我不同意接受維持生命的治療方法來拖延生命。但我明白我仍會得到基本的護理、藥物及舒緩治療。(若您對本環節有疑問，我們鼓勵您向您的家庭醫生或專科醫生查詢。)

If my doctor considers treatments/procedures that are unlikely to help improve my debilitating health condition but create suffering, I do not consent to be kept alive by receiving artificial means. However, I understand that I will still receive palliative care and medication. (We encourage you to talk to your GP or specialist if you are not sure about this matter.)

若我已接近人生的最後階段，如果可以的話，我希望在以下地方得到照顧：

If possible, when I am approaching the end stage of my life, I wish to be cared for and die in the comfort of:
